Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 24-31, drawn to a method for making a plastic film.

Group II, claim(s) 32-39, drawn to an apparatus for making a plastic film.

Group III, claim(s) 40-46, drawn to a plastic film.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: All the groups are directed to an article and a process useful in the general field of the porous film for acoustic applications. Group I has a special technical feature directed to an extruding step not required for Groups II-III. Group II has a special technical feature directed to a gas supplied means not required for Groups I and III. Group III has a special technical feature directed to bubbles with maximum diameter of 110 micrometers and the maximum height of 10 micrometers not required for Groups I-II.

A telephone call was made to Benoit Castel on 09/26/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1771

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
